

OPTIFERT

Custom Blend 22-5-8 25KG

OPTIFERT

Custom Blend 22-5-8 Compound Fertiliser

Benefits of OptiFert

Little to no dust during handling and spreading

Increased solubility

Lower salt index

25kg

OPTIFERT

Custom Blend 22-5-8 25KG

OPTIFERT

Custom Blend 22-5-8

Product Analysis	
Nitrogen (N)	11.7% w/w
Nitrogen as Urea	8.7% w/w
Nitrogen Ammonium Form	8.7% w/w
Nitrogen Total	20.4% w/w
Potassium (K)	16.0% w/w
Potassium as Chloride	16.0% w/w
Sulfur (S)	10.2% w/w
Sulfur as Sulfate	10.2% w/w
Biuret (-)	0.4% w/w
Biuret g/kg N	20g/kg N
Cadmium (Cd)	1mg/kg
Lead (Pb)	10mg/kg
Mercury (Hg)	1.0mg/kg
Estimated Density	925kg/m ³

This is a blended fertiliser in which some segregation of the nutrients may occur, and may lead to some variation from the stated analysis. The product is not a uniform granule.

Quoted bulk fertiliser densities may vary by +/- 15%.

HEAVY METALS
This product contains heavy metal impurities. Its use may result in accumulation of mercury in the soil and may, in some circumstances, result in the presence of mercury in animal products in excess of the maximum level specified by the Australian New Zealand Food Standards Code. This product is not intended for use on food crops.

USE DIRECTIONS
It is generally recommended that fertiliser not be stored in silos. If it is necessary to store this fertiliser in a silo, it should be for a short period of time, i.e. temporary storage immediately prior to use.

Refer to the following Guidance Notes for Storing Fertilisers in Silos for more details on silo design, management and safety. This product should not be stored in a silo.

WARNING - DO NOT STORE FERTILISER IN SILOS!!!
Blended fertiliser for use in horticulture.

This fertiliser is for dry application to the soil. Do not use in water.

It is generally recommended that fertiliser not be stored in silos. If it is necessary to store this fertiliser in a silo, it should be for a short period of time, i.e. temporary storage immediately prior to use.

Refer to the following Guidance Notes for Storing Fertilisers in Silos for more details on silo design, management and safety. This product should not be stored in a silo.

Stand off for a minimum of 24 hours before application to your fertiliser spreader before use. Fertiliser may contain or damage pasture and crops, and affect the health of grazing animals. Avoid direct ingestion of unfilled fertiliser by livestock. This fertiliser is not intended for general agricultural use. For more information on the use of this product, please contact your retailer before using this product.

SAFETY DIRECTIONS
This is a blended fertiliser product. Contact with the eyes, skin, hair, or clothing may occur. Avoid contact with the face. If contact occurs, remove clothing, shower and skin should always be washed thoroughly. If contact occurs with the eyes, go to hospital immediately. Contact your retailer to search this product on ChemWatch.

CARE OF EQUIPMENT
This product can be corrosive to metals. Clean equipment after use, and follow manufacturer's maintenance advice. Tools and equipment used to transport, store and handle fertiliser should be thoroughly cleaned after use.

This label complies with the Fertiliser Australia National Code of Practice for Fertiliser Description and Labelling.

SAFETY DATA SHEET
Additional information is listed in the safety data sheet (SDS). A safety data sheet is available on request. Call Customer Service on (02) 9999 4655 or visit titanagriculture.com.au

CONDITIONS OF SALE: TITAN AGR Pty Ltd shall not be liable for any loss, injury, damage or death whether consequential or otherwise arising from the use of this product, or from the application of this product, in connection with this sale, unless the application of this product is in accordance with the instructions on the label.

The supply of this product is on the express condition that the purchaser does not rely on TITAN AGR Pty Ltd for any information pertaining to the use of this product, or for any advice on the application of this product, at its own risk and liability. No representative of TITAN AGR Pty Ltd has any authority to add to or alter these conditions.

Additional statements required by Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia not classified as Dangerous Goods according to the Australian Code of Practice for the Transport of Dangerous Goods by Road and Rail.
